

A NEW INTERFACE FOR WEB ARCHIVES? PROOF OF CONCEPT DEVELOPED BY THE ROYAL LIBRARY

Niels Brügger

PROFESSOR WITH SPECIAL RESPONSIBILITIES,
HEAD OF THE CENTRE FOR INTERNET STUDIES,
AND OF DIGHUMLAB/NETLAB

VERUNITET

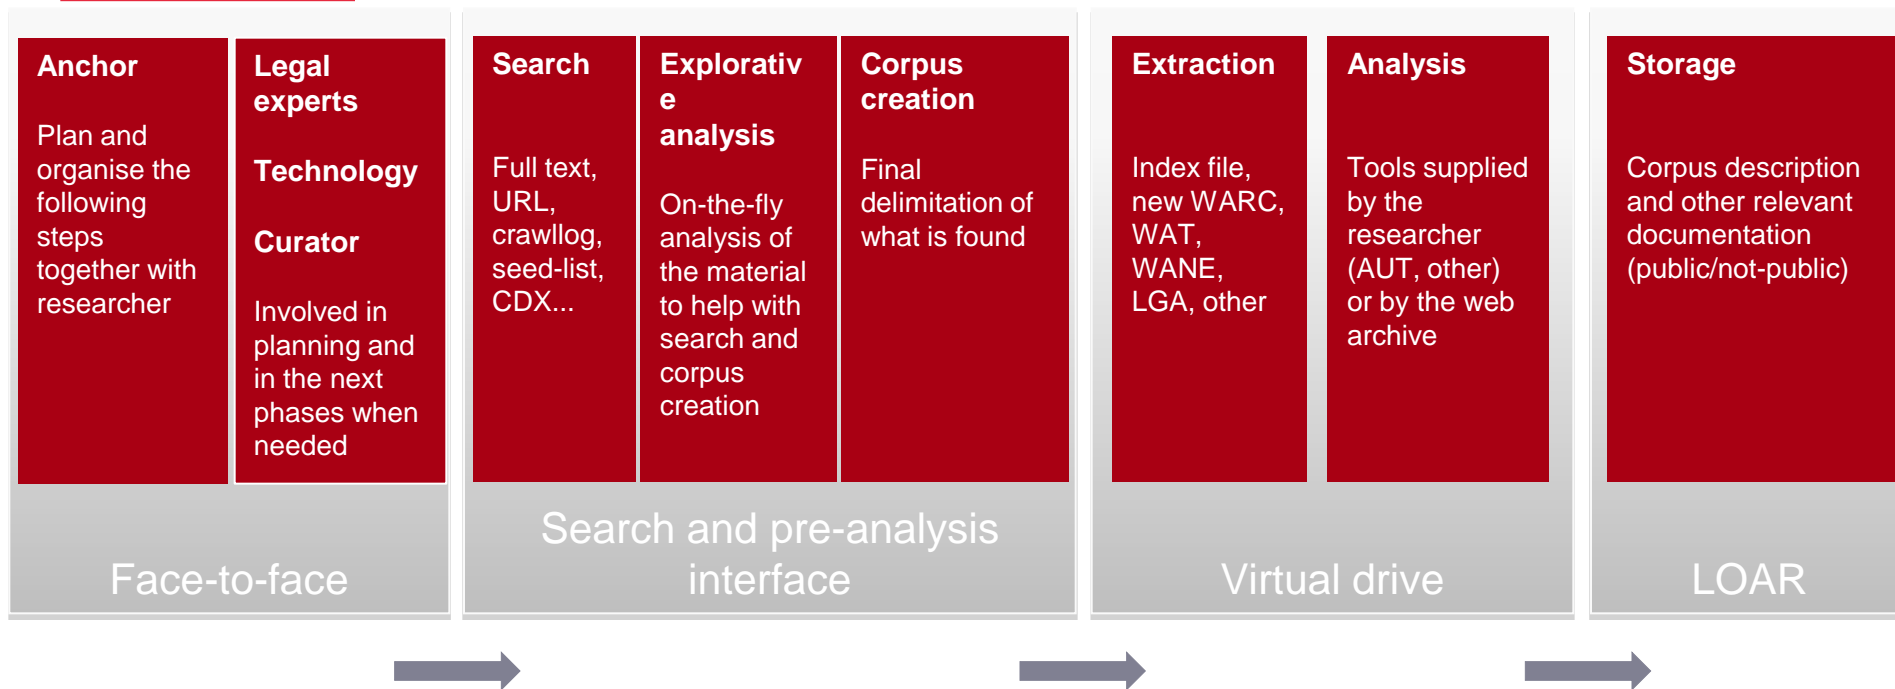

A NEW INTERFACE

- › Maybe to be implemented as interface to the national Danish web archive Netarkivet
- › Developed by Thomas Egense, Netarkivet
- › I showed demo videos at web archiving conference in Israel last Sunday
- › A lot of interest! The Internet Archive wants to learn more...
- › Already running in Hungary! —
<http://193.6.201.202/solrwayback/>

THE TEST DATA

- › My personal web archive
- › 2000-2007
- › Archived by the use of Internet Explorer, HTTrack, and similar
- › Transformed to WARC-files
- › WARC files indexed (solr)
- › Interface running on top of this index and the WARC files
- › 23GB

VISION OF A WORKFLOW

Web archive: provides infrastructural elements and supports these.

Researcher: provides research tools and has to learn to use these him/herself (probably some sort of procedure of software approval is needed).
